# WE'RE SPECIALIZED IN INTEGRATING TECHNOLOGY ON BOARD OF SUPERYACHTS, LUXURY HOMES & CONFERENCE ROOMS

## CUSTOM DESIGN: AUDIO VIDEO SYSTEMS AND NETWORK

Audio Video and IT technology are an indispensable part of our life in the world of today. At work or at home, we use them constantly for both productivity and entertainment: high-performance, functional and flexible systems.

Our job is to have these technologies blend into our lifestyle or workflow so that what is noticed is only the value they add. No project is too big or small.

We work with industry-leading brands to deliver the most complete user-friendly experience, be it in the comfort of our home or in the most demanding office space.

This is a core aspect of our design philosophy and our interfaces on tablets or fixed touch panels are engineered so that all core functions are just a few clicks away and do not delay your work or your entertainment.

## AUDIO VIDEO SOLUTIONS

Audio visual equipment & systems integration

## LOCAL AREA NETWORK (LAN)
